

Brian Murphy, Service Mechanic & Electrical Technician

“I grew up in the city (Southwest Harbor)
now I live in the country (Franklin)”

8 years with JWBC **30 years** in the marine industry

Marine Experience

Brian started building boats in 1980 at Ocean Cruising Yachts on Mount Desert Island, spent six years at Wilbur Yachts in Southwest Harbor, and sixteen years at Hinckley Yachts in the Service Department before coming to John Williams Boat Company in 2004.

On Working at John Williams Boat Company

“Working for JWBC feels like I’ve come full circle. It is a smaller, more personal work environment. Each day I have the opportunity to work closely with employees and develop personal relationships with our customers. It is satisfying working together as a team to provide quality service and a superior product.”

Outside Hobbies/Interests

“Family is always first. Second is getting out and enjoying the great state of Maine and all it has to offer. Spring gardening and summer day trips in my *wife’s* Miata highlight the warmer months. We have an annual cruise to Bermuda in September then we enjoy our three grandchildren, daughter and son-in-law during the holiday months. Winter is certainly my favorite season with plenty of snow to go out snowmobiling.”
